Director's Office Information Bulletin No. 2002-002

To: All Supervisors/Managers
From: Director, Office of Fire and Aviation
Subject: Safety for Supervisors Satellite Broadcast

The Office of Fire and Aviation is committed to providing safety training to all supervisory personnel to meet the requirements of 29 CFR 1960. All supervisors, managers, team leads, work leaders, and program leads in the Bureau must complete a Safety for Supervisors training course. To provide this training, the National Training Center (NTC) has developed a satellite training course which will be broadcast on February 28, 2002. The course begins:

Time: 9:00–11:30am
12:30–2:00 pm

Location: Great Basin Training Building, Snake River Room

This course outlines a supervisor's safety responsibilities and will utilize the new interactive "push to talk" technology to reach all students. To register for the course, visit the NTC web site www.ntc.blm.gov. Upon completion of the course, a certificate will be issued from the NTC. Please ensure that all supervisory employees in your offices have the opportunity to take advantage of this training.

For more information please contact Stan Palmer at 387-5507.
