Subject: Rural Fire Assistance Agreements

DD: 2/28/01

The 2001 Annual Work Plan Directives contained the program objectives and management direction for the Rural Fire Assistance Program in FY 2001. To enable field units in implementing program objectives an interagency work group was established in December to develop an agreement format that can be used to transfer funds when necessary to local fire departments.

This agreement format is not finalized and needs a field review by fire program and administrative personnel before full implementation can be completed. We are rushing full implementation of the agreement format and would like comments prior to 2/28/01.

Please direct your E-mail comments to Bill Casey, Office of Fire and Aviation.
