Subject: Fire Management Documentation - FY 2001 Budget Results DD: 8/10/2001

As we have in past years, we are now requesting information on how the FY 2001 Preparedness (2810) funds have actually been targeted. Our specific objective is to obtain information on what fire resources are actually hired or activated for 2001. With the advent of full Most Efficient Level (MEL) funding as a result of the individual unit's Fire Management Plans and the National Fire Plan, the issue of accountability has been dramatically increased. This information will be used to respond to internal Bureau as well as Departmental, Office of Management and Budget (OMB), and congressional inquiries regarding BLM's preparedness resources.

Please have each District/Field Office and the State Office complete the attached form with the actual forces/use of allocated fire funds for this fire season. Please note that the requirement for aircraft accounting has been eliminated and will be completed by the National Aviation Office. Submit the completed forms to the Office of Fire and Aviation Management, FA-100, by August 10, 2001.

Questions may be addressed to Bill Mitchell at 208-387-5420.
