Information Bulletin No. OF&A 99-012

To: Assistant Directors, State Directors  
From: Director, Office of Fire and Aviation  
Subject: Hazardous Fuels Reduction Accomplishment Report

Attached is the "Final Hazardous Fuels Reduction Accomplishment Report" for FY98. The report shows that the Bureau accomplished over 200,000 acres of hazardous fuels reduction projects. This is more than a threefold increase of our historic accomplishments in this area. In addition to what the report shows, there was also a lot of planning and preparation work accomplished toward next year's projects. This is an outstanding accomplishment and a very positive beginning as we increase our efforts toward reducing fire hazards and reintroducing fire into fire-dependant ecosystems.

We wish to take this opportunity to express our appreciation for this outstanding effort. It is recognized that this is not just a "Fire" accomplishment. This accomplishment reflects the efforts of field managers, fire and resource specialists, our cooperators and the public.

As we move forward and expand this program, we will face additional challenges. Internal and external coordination, smoke management, planning, and resource management issues are just some of the problems we will encounter. We must constantly remember that the SAFETY of our personnel is always our FIRST PRIORITY.

Signed by:  
Lee F. Englesby  
Director, Office of Fire and Aviation  
(Acting)

Authenticated by:  
Pat Lewis  
Supervisory Mgmt. Asst.

The Rx Acres are actual "Black Acres" based on post-burn mapping or estimates. The acres reported include projects funded by all funding sources.

The Non-Rx Acres are hand, chemical, or mechanical hazard reduction projects acres treated.

The offices below have obligated FY98 2823 funds against existing contracts for reduction work to be completed in FY99.

WYWOD	121 acres
ORMED	4,784 acres
ORLAD	6,071 acres
Total	10,876 acres

The offices below have obligated FY98 5900, 6350, and 6320 funds against expected hazardous fuel reduction work to be completed in FY99.

ORMED	976 acres
ORLAD	2,829 acres
Total	3,805 acres
